## **ABSTRACT**

Housing is a primary need that must be owned by everyone. The boarding house and rent house business is the best alternative for people who don't have a private house to live in. The boarding house and rent house business is very promising, but there is no online ordering system that helps make running this business easier. On the other hand, this business requires resources to build and renovate regularly to maintain quality, but it is difficult to access buildings and interior store offline. Therefore, this project proposes to create an application that manages an online property rental and purchase transaction system that can be done anywhere and anytime.

## ACKNOWLEDGEMENT

I thank God for the presence of Allah SWT for all the blessings and gifts, as well as for completing the final project titled "Development of Mobile Application Rent and Buy Property" business. None of this would have been possible without the support of everyone around me.

Therefore, I would like to express my deepest gratitude to:

1. Beloved family, father, mother, de Ferdi, teh Dila, a Dimas, and teh Ika for all their prayers and support.
2. Ms. Cutifa Safitri, my final project adviser, for all your help and advice while working on this project.
3. Mba Inda, who has always been there to help us by responding to all of students worries.
4. All the lecturers at President University have provided me with valuable knowledge.
5. For all my friends who helped and supported me in completing this final project.
