PANEL OF EXAMINER APPROVAL

The Panel of Examiners declare that the undergraduate thesis entitled Development of the 5S Audit and Safety (Safety Patrol) Information System Android Platform at PT. IK Precision Indonesia that was submitted by Bella Febriana majoring in Information System from the Computing was assessed and approved to have passed the Oral Examination on 10th February 2023.

Panel of Examiner

.....
Rusdianto Roestam MSc., PhD.

.....
Abdul Ghofir, S.Kom., M.Kom.

THE STATEMENT OF ORIGINALITY

In my capacity as an active student at President University and as the author of the thesis/final project/business plan listed below:

Name : Bella Febriana
Student ID number : 012201900014
Study Program : Information System
Faculty : Computing

I declare that my thesis/final project/business plan is legitimate **“Development of the 5S Audit and Safety (Safety Patrol) Information System Android Platform at PT. IK Precision Indonesia”** is, to the best of my knowledge and belief, an original piece of work based on solid scientific principles. If plagiarism is found in this thesis/final project/business plan, I agree to be personally responsible for the consequences of those acts of plagiarism and accept sanctions for such acts in accordance with the rules and policies of the President University.

I also declare that this work, in whole or part, has not been submitted to any other university for the purpose of obtaining a degree.

ADVISOR APPROVAL FOR JOURNAL/INSTITUTION'S REPOSITORY

As an academic community member of the President University, I, the undersigned:

Name : Ir. Rila Mandala, M.Eng., Ph.D.

ID Number : 20020200021

Study Program : Information Technology

Faculty : Computing

Declare the following Final Project:

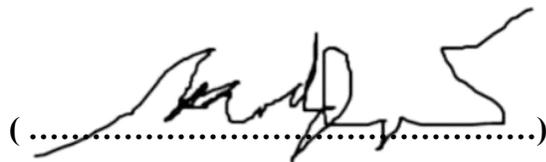

The Title of Final Project : Development of the 5S Audit and Safety (Safety Patrol)
Information System Android Platform at PT. IK Precision
Indonesia

Final Project author : Bella Febriana

Student ID Number : 012201900014

Will be published in the journal/institution's repository/proceeding/unpublished

ABSTRACT

Along with technological developments, smartphones also contribute to growth in it. Many companies still use the manual method/using paper to record their cleanliness check and assessment process. PT. IK Precision Indonesia is one of the parties wanting to make the best efforts utilizing technology. Therefore, it is believed that the company will start using the application of the scoring system as a form of company in keeping abreast of technological developments. Good checking and assessment methods can have a good impact on companies in maintaining a clean and safe environment.

This final project will discuss the to develop of a mobile-based application to carry out the process of checking and evaluating cleanliness or 5S Audit and Safety at PT. IK Precision Indonesia effectively. The system will function to check if there is damage to goods that occur in the company. And assess how safe and clean the environment is in the company. The author will provide a good rating system so that employees can easily input the assessment. In the end, the cleanliness and security of the company can be well controlled by the Team to produce an application-based 5S Audit and Safety assessment system for the company and websites that are used by the admin function to add users, manage data history, and master data.

ACKNOWLEDGMENTS

I would like to thank my gratitude to Allah SWT for the bounties on me and my companions up to this point. I wrote this thesis titled “Development of the 5S Audit and Safety (Safety Patrol) Information System Android Platform at PT. IK Precision Indonesia” as a student with a graduation requirement to complete a final project.

For me, life on this campus has its own color and I can learn how to be strong in the future. For this reason, I would like to express my gratitude to:

1. To my parents and sister who always give me direction and motivation to move forward to create something better in the future and who always pray for me no matter the circumstances.
2. Mr. Rila Mandala as my final project supervisor who is always ready to provide direction and support from beginning to end.
3. To all computing lecturers who have provided the best experience and teaching for their efforts. Not to forget Mrs. Yeni and Mrs. Indah who always help their students to complete the college process.
4. Over the past three years, Annisa Nurul Aini, Reta Putri Nurfajriyani, and Rudolf Triolan Hasara Nazara, have been a constant reminder to keep spirits up and work together to overcome all these challenges.
5. Lalu Wirejagad, who has been an inspiration to stay afloat even in the most trying of circumstances in order to achieve one's goals, as well as an excellent listener and constant source of motivation to keep going.
