PANEL OF EXAMINER APPROVAL

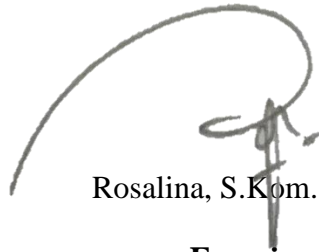

The Panel of Examiners declare that the undergraduate thesis entitled **Developing Web-Based Payroll and Leave Information System at Shining Sunrise Resources Sdn. Bhd.** that was submitted by Yuli Ady Astuti majoring in Information System from faculty of Computing was assessed and approved to have passed the Oral Examination on 10 March 2023.

Panel of Examiner

Hadi Suprayitno, S.Kom., M.M.

Chair of Panel Examiner

Rosalina, S.Kom., M.Kom.

Examiner I

STATEMENT OF ORIGINALITY

In my capacity as an active student of President University and as the author of the thesis/final project/business plan (underline that applies) stated below:

Name : Yuli Ady Astuti
Student ID number : 012201900043
Study Program : Information System
Faculty : Computer Science

I hereby declare that my thesis/final project/business plan entitled " **Developing Web-Based Payroll and Leave Information System at Shining Sunrise Resources Sdn. Bhd.** " is to the best of my knowledge and belief, an original piece of work based on sound academic principles. If there is any plagiarism detected in this thesis/final project/business plan, I am willing to be personally responsible for the consequences of these acts of plagiarism, and will accept the sanctions against these acts in accordance with the rules and policies of President University.

I also declare that this work, either in whole or in part, has not been submitted to another university to obtain a degree.

**SCIENTIFIC PUBLICATION APPROVAL
FOR ACADEMIC INTERESSET**

As an academic community member of the President's University, I, the undersigned:

Name : Yuli Ady Astuti
Student ID number : 012201900043
Study Program : Information System

for the purpose of development of science and technology, certify, and approve to give President University a non-exclusive royalty-free right upon my final report with the title:

**Developing Web-Based Payroll and Leave Information System
at Shining Sunrise Resources Sdn. Bhd.**

With this non-exclusive royalty-free right, President University is entitled to converse, to convert, to manage in a database, to maintain, and to publish my final report. There are to be done with the obligation from President University to mention my name as the copyright owner of my final report.

This statement I made in truth.

GPTZero REPORT

Stats

Average Perplexity Score: 612.049

A document's perplexity is a measurement of the randomness of the text

Burstiness Score: 2356.042

A document's burstiness is a measurement of the variation in perplexity

Your sentence with the highest perplexity, "*Bhd.*", has a perplexity of: 15112

ABSTRACT

Salary is remuneration in the form of money received by employees as a consequence of their status as an employee who contributes to achieving company goals [1] so that it can be said that payroll is an important activity because it involves obligations that must be given by the company to the rights of its employees. Because of the importance of this payroll activity, every company always wants to minimize errors, but with data processing that is still done manually it causes frequent errors from recording attendance due to an unorganized database or calculation errors from HRD or Finance. Shining Sunrise Resources Sdn. Bhd. which is a container repair company which oversees several other companies under it also still processes payroll activities manually, it lead to inefficient due to numbers of employees working in this company is quite a lot, besides that it is also prone to inaccuracies from various parties. The phenomenon of technological progress that is currently increasing rapidly can certainly be used to help payroll problems experienced by several companies, one of which is Shining Sunrise Resources Sdn. Bhd. This research aims to improve the previous payroll system to be adapted to the web, not only the problem of calculating salary and attendance but also the problem of leave and reimbursement will be easier if the database is integrated so that the handling of these activities can be more time efficient and minimize errors. In addition to minimizing web payroll errors, it is also hoped that it can reduce the company's dependence on paper and speed up the flow of information which will allow employees, HRD or Finance to easily connect with each other to be more up to date.

ACKNOWLEDGMENTS

I always say thousands of thanks for all the blessings that Allah SWT has given so far so that I can study in college and can finish it well and get lots of lessons from friends to lecturers who always accompany me in the process. By completing a final project entitled “Developing a Web-Based Payroll and Leave Information System at Shining Sunrise Resources Sdn. Bhd.” As a condition of this graduation, I would especially like to thank:

1. My beloved parents, my two younger sister Novi Adyanti and Nurlayla Salsabilla who always support me, give me encouragement, always accompany me in all situations.
2. Sir Genta Sahuri as the supervisor in this final project who has devoted his time to provide advice, encouragement, motivation from beginning to end.
3. All lecturers and staff who have provided knowledge and helped me during my lectures in President University.
4. Mr Mohd. Nadzry bin Ab Talib who has allowed me to take a study case at Shining Sunrise Resources Sdn. Bhd.
5. Intan my first friend at PU, Ayu my friend from 1st semester until now, Khoirotul my high school friend, Nabila my bimester friend and Rohimah.
6. Friends of the 2019 Information System, whom I cannot mention one by one, I also thank you for all the learning and memories so far.
