CHAPTER I INTRODUCTION 1.1 Background PT Anugerah Pharmindo Lestari is engaged in distribution, increasingly developing technology in this era.

Currently, technology has a significant role within the context of field of communication.

Furthermore, to the field of communication, current technology can already help humans in completing work in the field of engineering and preparation of documents that were originally carried out by humans manually and took a long time to implement.

Fiber that is less effective is now able to be implemented more quickly and precisely[11].

Performing periodic maintenance activities will provide many benefits for the company.

ABSTRACT

Creating a website to monitor of document inspection facilities and equipment in the company is one way to improve efficiency and effectiveness in the management and maintenance of facilities and equipment. The website can allow administrators to access information about the performance of facilities and equipment in real-time and also monitor their condition and status. The creation of a website for monitoring of document inspection facilities and equipment . It makes it easier for the engineering team to see data on facilities and equipment at PT. Anugerah Pharmindo Lestari and makes it easier to technician admins, supervisor admins, head or manager admins, and audit admins, to see monitoring that has previously been checked with the engineering team through the monitoring form, then the tehchnician admin uploads it on the monitoring of document inspection facilities and equipment website and then it will be checked by the supervisor admin until audit admin to make sure the facilities and equipment have been conditioned and checked by the engineering team. So that the audit admin who comes to entrust the product at PT. Anugerah Pharmindo Lestari knows that the machine facilities and equipment are always checked according to the schedule. In addition, it is necessary to consider data security and user privacy in making websites, such as maintaining database security. In conclusion, creating a website to monitor of document inspection facilities and equipment in the company can improve efficiency and effectiveness in the management and maintenance of facilities and equipment.

Keywords : project management, system management, company, monitoring of document inspection facilities and equipment, performance monitoring, detailed reports, and documents.

DEDICATION

With the deep gratitude, I as the author of this final project dedicate this final project to:

1. To my beloved parents, thank you father and mother who have helped and encouraged their children in doing the final project. Without the prayers and help and support from my parents, I might not be able to complete this final project.
2. For my best friend, I am very grateful for always listening to what I tell and complaining while working on this Final Project so that I can get through the difficult feelings that are inside of me.

ACKNOWLEDGMENTS

I have a desire to acknowledge and give my big thanks to my Thesis Advisor Mrs. Rosalina that made this work possible to do until finish. Her guidance and advice carried me from the beginning of my difficulties when I struggling working on it until I finish this final project. I would also like to express my gratitude to my friends for consistently providing me with encouragement and creating an enjoyable atmosphere during my thesis defense, thank you.

I would also like to give my special thanks to my all family my father, mother, younger sister to always believe me in that I can through from all of this that make me feel always feel confident and trust myself that I can do this final project until finish. Also, your prayer for me really made me finish this final project.

Lastly, I express my gratitude to the Almighty God, Allah SWT, for providing me with the strength to overcome the challenges encountered during the completion of this final project. I have witnessed Your guidance throughout this journey, as You have consistently shown me alternate paths whenever I faced difficulties. He has no eyes though he sees, He has no ears through he hears, He remember everything mind and memory retain all information, and when He desires to create something, He simply commands it into existence, and it materializes. This entity is God, Allah. I am grateful to God for guiding me through all of these experiences.
