

## IMPLEMENTATION OF DMAIC METHODS TO REDUCE SCRAP IN PLASTIC INJECTION MOLDING AREA AT PT.ABC INDONESIA

#### UNDERGRADUATE FINAL PROJECT

Submitted as one of the requirements to obtain Sarjana Teknik (S. T.)

By Denartha Randhika ID No. 004201900057

FACULTY OF ENGINEERING INDUSTRIAL ENGINEERING STUDY PROGRAM CIKARANG MAY, 2023

## PANEL OF EXAMINER APPROVAL

The Panel of Examiners declare that the undergraduate thesis entitled "Implementation of DMAIC Methods to Reduce Scrap in Plastic Injection Molding Area at PT.ABC Indonesia" that was submitted by Denartha Randhika majoring Industrial Engineering from the Faculty of Engineering was assessed and approved to have passed the Oral Examination on 31th May 2023

Panel of Examiner

Ir. Adi Saptari, M.Sc., Ph.D.

**Chair of Panel Examiner** 

Athina Sakina Ratum, S.T., M.Sc.

**Examiner I** 

### THESIS ADVISOR RECOMMENDATION LETTER

This thesis entitled "Implementation of DMAIC Methods to Reduce Scrap in Plastic Injection Molding Area at PT.ABC Indonesia" is prepared and submitted by Denartha Randhika in partial fulfillment of the requirements for the degree of Bachelor Degree in the Faculty of Engineering has been reviewed and found to have satisfied the requirements for a report fit to be examined. I therefore recommend this final project for Oral Defense.

Cikarang, Indonesia, May 31st, 2023

Ir. Andira Taslim M. T.

STATEMENT OF ORIGINALITY

In my capacity as an active student of President University and as the author of the

undergraduate thesis/final project/business plan stated below:

Name : Denartha Randhika

Student ID number : 004201900057

Study Program : Industrial Engineering

Faculty : Engineering

I hereby declare that my undergraduate thesis/final project/business plan entitled

"Implementation of DMAIC Methods to Reduce Scrap in Plastic Injection

Molding Area at PT.ABC Indonesia " is to the best of my knowledge and belief,

an original piece of work based on sound academic principles. If there is any

plagiarism, including but not limited to Artificial Intelligence plagiarism, is

detected in this undergraduate thesis/final project/business plan, I am willing to be

personally responsible for the consequences of these acts of plagiarism, and accept

the sanctions against these acts in accordance with the rules and policies of

President University.

I also declare that this work, either in whole or in part, has not been submitted to

another university to obtain a degree.

Cikarang, 31st May 2023

(Denartha Randhika)

iv

SCIENTIFIC PUBLICATION APPROVAL FOR

**ACADEMIC INTEREST** 

As an academic community member of the President's University, I, the

undersigned:

Name : Denartha Randhika

Student ID number : 004201900057

Study program : Industrial Engineering

for the purpose of development of science and technology, certify, and approve to

give President University a non-exclusive royalty-free right upon my final report

with the title:

**Implementation of DMAIC Methods to Reduce Scrap in Plastic Injection** 

Molding Area at PT.ABC Indonesia

With this non-exclusive royalty-free right, President University is entitled to

converse, to convert, to manage in a database, to maintain, and to publish my final

report. There are to be done with the obligation from President University to

mention my name as the copyright owner of my final report.

This statement I made in truth.

Cikarang, 31st May 2023

(Denartha Randhika)

# ADVISOR'S APPROVAL FOR JOURNAL/INSTITUTION'S REPOSITORY

As an academic community member of the President's University, I, the undersigned:

Name : Ir. Andira Taslim M. T.

ID number/ NIDN : 0426037002

Study program : Industrial Engineering
Faculty : Faculty of Engineering

declare that following thesis:

Title of thesis : Implementation of DMAIC Methods to Reduce Scrap in

Plastic Injection Molding Area at PT.ABC Indonesia

Thesis author : Denartha Randhika

Student ID number : 004201900057

will be published in journal/institution's repository.

Cikarang, 31st May 2023

(Ir. Andira Taslim M. T.)

# Implementation of DMAIC Methods to Reduce Defect in Plastic Injection Molding Area at PT.ABC Indonesia

By:

## AI BASED PLAGIARISM CHECKING RESULT

#### **Stats**

Average Perplexity Score: 304.460

A document's perplexity is a measurement of the randomness of the text

**Burstiness Score: 483.091** 

A document's burstiness is a measurement of the variation in perplexity

Your sentence with the highest perplexity, "Production activity in PT.ABC Indonesia is normal production.", has a perplexity of: 2059

© 2022-2023 GPTZero

#### **ABSTRACT**

PT.ABC Indonesia has a project to reduce high number of scraps in Primary Production area. Plastic Injection Molding area contributes over 50% from total scrap in Primary Production area and resulted scrap value that total Rp. 378.803.000 in first quarter of 2023. These scraps happen because of the changeover process procedure. This research use Lean Six Sigma approach through DMAIC Methodology. Several improvements are implemented new procedure for color change and tool change without purging process and slide the hopper when Daily Schedule Adherence achieve 95%. The improvement resulted 57% reduction of scrap in Plastic Injection Molding. In detail, color change and tool change procedure reduce 62% scrap, While the slide hopper process was reduce wrong color scrap by 16%. By this research, the company already saving the cost Rp. 49.237.000 and predicted will save up to Rp. 434.660.000 by the end of year 2023.

Keywords: DMAIC, Lean, Six Sigma, Plastic Injection Molding, Purging, Scrap, Wrong Color

#### ACKNWOLEDGEMENT

In the name of Sanghyang Adi Buddha, the most Gracious and the most merciful, all praises to Buddha for the strengths and His blessing in completing this final project report. This research has been kept on track and been seen through to completion with the support and encouragement of numerous people. At the end, I would like to express my gratitude to:s my gratitude to:

- Mam Ir. Andira Taslim M.T. as my thesis advisor who give me a lot of suggestion, advice, and support from the beginning of my final project until I finish this final project. Thank you for being a very kind mentor for me and inspiring me to do better.
- 2. My beloved family: My dad, Mom, Koko Dimas, Cece Ayu, Cece Lili who always support me in all things I have done. I wouldn't have arrived at this point if they were not supporting me. I love you 3000 in every universe.
- 3. All industrial engineering study program lecturer who taught me from the beginning of my university until now I am reaching the end of my university life. Thankyou for sharing the preciouse knowledge to me.
- 4. All of PT.ABC Indonesia employee especially Mr.AM, Mr.WDC, Ms.GS, Mr.SW as my internship supervisor and manager. Thankyou for all the internship knowledge and experiences.
- 5. My dearest friend, Gissa A. Supit who make me feeling lovely and burn my spirit to finish this final project.
- 6. Two Musketeers. Arifky Aldi & Prima Yahya Yudistira, thanks for the coloring my university life with all those crazy party that support my worklife balance.
- 7. Industrial Engineering 2019, Mr. & Ms. President University, Ikatan Koko Cici Jawa Barat, PUBA. Thankyou for the support. Let us graduate together!
- 8. Others that I cannot mention one by one. Thankyou for all support, help, and experience that given to me.

Sincerely,

Denartha Randhika (Mr.Koko)
