## ABSTRACT

**Thesis Title:** *“QSD's Relevance Toward China's National Interest”*

This study is conducted to observe and find the knowledge and understanding of and a presupposition on the outcome of tensions between QSD and China relations. Whether QSD affects any decision-making by China or President Xi Jin Ping in their national interest, particularly the current ongoing project Belt Road Initiative (BRI). The necessity for the research arose due to the re-emergence of QSD in 2017 and QSD's view toward China and the Indo-Pacific and how it shall impact China's national interest and the political balance in the Indo-Pacific. The significance also analyses the conduct or any activities and movements made by QSD and how it impacts any member relations with China. This research will address any issue raised by QSD that can hinder the BRI project, China's current national interest. The Research Method used in this research is the qualitative method. The limitation of this study is that the time frame for this study will be from the QSD's resurgence, which began in 2015, when the forum started to emphasize China more and positioned itself as the protector of the Indo-Pacific region, through the start of numerous joint military drills by The United States and multiple QSD members, and into the year 2022 when the study is conducted. As a conclusion for the study, it is found that QSD is focusing on many issues other than China and that While the members of QSD are offering an alternative project that is deemed safer by QSD, the number of the investment money is far from what the BRI project is offering. Such nd that QSD did not give any effect towards the BRI proven by the number of the country joining BRI is not diminishing.

## ABSTRAK

**Thesis Title:** *“QSD's Relevance Toward China's National Interest”*

Kajian ini dilakukan untuk mengamati dan menemukan pengetahuan dan pemahaman serta praduga atas akibat dari ketegangan antara QSD dan hubungan China. Pemahaman tentang apakah QSD memengaruhi pengambilan keputusan apa pun oleh China atau Presiden Xi Jin Ping untuk kepentingan nasional mereka, khususnya proyek Belt Road Initiative (BRI) yang sedang berlangsung saat ini. Kebutuhan akan penelitian muncul karena kemunculan kembali QSD pada tahun 2017 dan pandangan QSD terhadap China dan Indo-Pasifik serta bagaimana hal tersebut akan berdampak pada kepentingan nasional China dan keseimbangan politik di Indo-Pasifik.

Signifikansi juga menganalisis perilaku atau aktivitas dan gerakan apa pun yang dilakukan oleh QSD dan bagaimana hal itu memengaruhi hubungan anggota dengan Tiongkok. Penelitian ini akan membahas masalah apa pun yang diangkat oleh QSD yang mungkin dapat menghambat proyek BRI, kepentingan nasional China saat ini. Metode Penelitian yang digunakan dalam penelitian ini adalah metode Kualitatif. Keterbatasan kajian ini adalah kerangka waktu kajian ini akan dimulai dari kebangkitan QSD yang dimulai pada tahun 2015, ketika forum tersebut mulai lebih menekankan China dan memposisikan diri sebagai pelindung kawasan Indo-Pasifik, melalui dimulainya banyak latihan militer gabungan oleh Amerika Serikat dan banyak anggota QSD, dan hingga tahun 2022, saat penelitian dilakukan. Sebagai Kesimpulan untuk penelitian ini, ditemukan bahwa QSD berfokus pada banyak isu selain China dan bahwa Sementara anggota QSD menawarkan proyek alternatif yang dianggap lebih aman oleh QSD, jumlah uang investasi jauh dari yang ditawarkan oleh proyek BRI Karena itulah jumlah negara yang bergabung dengan BRI tidak berkurang.

**Kata Kunci:** China, QSD (Quadrilateral Security Dialogue), BRI (Belt Road Initiatives), Xi Jin Ping, Australia, India, Jepang, Amerika Serikat.
