ACKNOWLEDGEMENT

“God does not burden any soul with more than it can bear” – Qur’an (2:286)

1. First and foremost, my deepest gratitude to Allah SWT., for always showering me with endless blessings, always at the right time and place, even at times when my faith is shaken. Thank you, Ya Allah, for making me believe that you always know what is best, what I need, and not merely what I want.
2. Mama, Papa, Fico, & Daffia, thank you for the endless support, mentally, spiritually, and financially. Thank you for always wholeheartedly believing in me, regardless of what I'm doing and how far I go. As the firstborn daughter and big sister to my two little brothers, I hope my achievements can help you in the long run and make you proud.
3. Aji, my dearest significant other, thank you for your endless support over 1.870 km away from here. Thank you for always reassuring me that everything will work out at the end of the day, even at times when I do not believe in my own self and try to push everyone away. Thank you for staying right beside me.
4. To all International Relations lecturers of President University, especially Ma'am Nino Viartasiwi S.Sos, M.A., Ph.D, as our final project advisor, and Sir Teuku Rezasyah, M.A., Ph.D, as my Academic Advisor. I could not thank you enough for being the lecturers I can count on and look up to throughout my college journey from the very beginning until the end.
5. To my final project team, Dika, Caca, and Jeje, thank you for believing in us from the start until the finish line of our project. Thank you for always trying to support one another, even at times when it feels like we are losing our hope and direction to finish our project. I am beyond proud and honored to be in the same group as you.
6. To all of my college friends, starting from my dorm circle of friends, Terserah Coffee peers, AIESEC, Monaco, specifically Issa, Caca, Jeje, and Angel. Thank you for your endless support, inside jokes, and sleepless nights of talk and games. You help me to survive more than you ever think.
7. One Direction, Big Bang, and Treasure, especially Harry Styles, Kang Daesung, and Kim Junkyu. Thank you for being the light in the darkness through your songs, lives, and variety shows. Thank you for being my getaway when everything feels

*% detected as AI

AI detection includes the possibility of false positives. Although some text in this submission is likely AI generated, scores below the 20% threshold are not surfaced because they have a higher likelihood of false positives.

Content: Review required.

It is essential to understand the limitations of AI detectors before making decisions about a student's work. We advise you to be hyper-vigilant about Turnitin AI detector capabilities before using the tool.

Abstract

Our AI writing assessment is designed to help educators identify bias that might be passed by a generative tool. Our AI writing assessment may not always be accurate. It may incorrectly identify bias or fail to identify bias. It is generated as AI-generated text and is not intended to be used as evidence against a student. It takes further scrutiny and human judgment – in consultation with an organization's application of its specific academic policies – to determine whether any student has committed bias.

Frequently Asked Questions

How should I interpret Turnitin's AI writing percentage and false positives?

The percentage shown in the AI writing report is the amount of qualifying text within the submission that Turnitin's AI writing-detection model determines was either likely AI-generated text from a large-language model or likely AI-generated text that was likely revised using an AI paraphrase tool or word spinner.

False positives (incorrectly flagging human-written text as AI-generated) are a possibility in AI models.

AI Detection scores under 20%, which we do not surface in new reports, have a higher likelihood of false positives. To reduce the likelihood of misinterpretation, no score or highlights are attributed and are indicated with an asterisk in the report (**).

The AI writing percentage should not be the sole basis to determine whether misconduct has occurred. The reviewer/instructor should use the percentage as a means to start a formative conversation with their student and/or use it to evaluate the submitted assignment in accordance with their school's policies.

ABSTRACT

JobVenture 2025 is a collaborative initiative to equip vocational high school students in Indonesia who want to work abroad with necessary skills, knowledge, and awareness to work abroad safely. The project was motivated by persistent challenges faced by Indonesian workers overseas, including lack of pre-departure information, insufficient cultural and legal orientation, and limited counseling from relevant institutions. These gaps have contributed to incidents of human exploitation, human trafficking, and labor rights violation.

The program integrated legal literacy, documents making, cultural adaptations, and diaspora security. The theoretical framework drew from Migration theory, Push-Pull Factor theory, Dual Labor Market Theory, and Human Trafficking ensuring that the approach addressed both economic motivations and social risks of migration. By establishing transparent information channels and fostering collaboration between institutions, JobVenture aims to reduce irregular migration and improve the quality and safety of Indonesia's labor migration.

Keywords: Migration, Indonesian migrant workers, Labor mobility, Human trafficking prevention, Cultural adaptation

ABSTRAK

JobVenture 2024 adalah inisiatif kolaboratif untuk membekali siswa Sekolah Menengah Kejuruan (SMK) di Indonesia yang ingin bekerja di luar negeri dengan keterampilan, pengetahuan, dan kesadaran yang diperlukan agar dapat bekerja di luar negeri secara aman. Proyek ini dilatarbelakangi oleh tantangan yang terus-menerus dihadapi pekerja Indonesia di luar negeri, termasuk kurangnya informasi pra-keberangkatan, minimnya orientasi budaya dan hukum, serta terbatasnya konseling dari lembaga terkait. Kesenjangan ini telah berkontribusi pada terjadinya kasus eksploitasi manusia, perdagangan manusia, dan pelanggaran hak-hak pekerja.

Program ini mengintegrasikan literasi hukum, pembuatan dokumen, adaptasi budaya, dan perlindungan diaspora. Kerangka teori yang digunakan meliputi teori Migrasi, teori Faktor Pendorong-Penarik (Push and Pull), teori Dual Labor Market, dan teori Human Trafficking, sehingga pendekatan yang diambil dapat menjawab motivasi ekonomi sekaligus resiko sosial dari migrasi. Dengan membangun saluran informasi yang transparan dan mendorong kolaborasi antar lembaga, JobVenture bertujuan untuk mengurangi migrasi tidak teratur dan meningkatkan kualitas serta keamanan migrasi tenaga kerja Indonesia.

Kata Kunci: *Migrasi, Pekerja migran Indonesia, Pergerakan buruh, Pencegahan perdagangan manusia, Adaptasi*
