AI TURNITIN REPORT

0% detected as AI

The percentage indicates the combined amount of likely AI-generated text as well as likely AI-generated text that was also likely AI-paraphrased.

Caution: Review required.

It is essential to understand the limitations of AI detection before making decisions about a student's work. We encourage you to learn more about Turnitin's AI detection capabilities before using the tool.

Detection Groups

 **0 AI-generated only: 0%**
Likely AI-generated text from a large-language model.

 **0 AI-generated text that was AI-paraphrased: 0%**
Likely AI-generated text that was likely revised using an AI-paraphrase tool or word spinner.

Disclaimer

Our AI writing assessment is designed to help educators identify text that might be prepared by a generative AI tool. Our AI writing assessment may not always be accurate (i.e., our AI models may produce either false positive results or false negative results), so it should not be used as the sole basis for adverse actions against a student. It takes further scrutiny and human judgment in conjunction with an organization's application of its specific academic policies to determine whether any academic misconduct has occurred.

Frequently Asked Questions

How should I interpret Turnitin's AI writing percentage and false positives?

The percentage shown in the AI writing report is the amount of qualifying text within the submission that Turnitin's AI writing detection model determines was either likely AI-generated text from a large-language model or likely AI-generated text that was likely revised using an AI paraphrase tool or word spinner.

False positives (incorrectly flagging human-written text as AI-generated) are a possibility in AI models.

AI detection scores under 20%, which we do not surface in new reports, have a higher likelihood of false positives. To reduce the likelihood of misinterpretation, no score or highlights are attributed and are indicated with an asterisk in the report (*%).

The AI writing percentage should not be the sole basis to determine whether misconduct has occurred. The reviewer/instructor should use the percentage as a means to start a formative conversation with their student and/or use it to examine the submitted assignment in accordance with their school's policies.

What does 'qualifying text' mean?

Our model only processes qualifying text in the form of long-form writing. Long-form writing means individual sentences contained in paragraphs that make up a longer piece of written work, such as an essay, a dissertation, or an article, etc. Qualifying text that has been determined to be likely AI-generated will be highlighted in cyan in the submission, and likely AI-generated and then likely AI-paraphrased will be highlighted purple.

Non-qualifying text, such as bullet points, annotated bibliographies, etc., will not be processed and can create disparity between the submission highlights and the percentage shown.

ABSTRACT

Creative writing requires a clear narrative structure so that the story can be conveyed effectively and interestingly. Film script writing uses the popular Three Act Structure theory as a starting point before beginning writing. The division into three acts aims to analysis this theory to build Character Development in order to be involved in the creation of the film script for Sunny's Story, which raises the theme of self-concept. This film script will highlight the main character's journey in facing internal and external conflicts as a search for and recognition of their true self-concept.

Keyword: Three Act Structure, Character Development, Scenario, Self-concept

ACKNOWLEDGEMENTS

I would like to thank everyone who has supported me, as well as Hyang Widhi, who has always granted my prayers and made it easy for me to complete my Final Project Report entitled THREE ACT STRUCTURE BUILDS CHARACTER DEVELOPMENT IN THE FICTION FILM SCENARIO “SUNNY’S STORY”

This report is submitted as one of the requirements for obtaining a Bachelor of Communication degree from President University. The author experienced ups and downs during the process of writing this Final Report, but is grateful to have been able to complete it in an orderly and timely manner thanks to the support and prayers that always accompanied the author from various parties. The following parties are involved:

1. My parents, my father Mr. Nengah Supartha and my mother Mrs. Junita Dewi, who always support me and give me advice. I would also like to mention my proud younger brother Satria Wira, my beloved memorable little sister Navya Pramadani and my memorable brother Putu Udayana.
2. Mr. Hari Suryanto, S.Sn., M.Sn. as Supervisor in this Final Project Scenario Research, Coordinator and Lecturer in Film and Television, Communication study program at President University, who always helps and gives advice for the author to continue to develop.
3. Mr. Raudy Gathmyr as Head of Communication Studies, President University.
4. Mr. and Mrs. Lecturer of the Department of Communication Studies.
5. My Bias, Huang Renjun and William Jakrapatr who are always there when I am feeling down and need motivation by their funny and attractive showtime video.
6. My Amazing Friend, Ni Gusti Ayu Kadek Ari Melysintia and Anak Agung Sagung Paramita Kusuma Wardhani, who is always there and quick to help when I need it.

7. My Random, Genius, Beautiful Bestie, Member of CERITA HARI INI, Love u guys so
matt.
8. I want to thank myself for believing in myself throughout this Final Project Report until
the end.

Finally, the author hopes Hyang Widhi almighty will be pleased to repay all who helped.

Hopefully, this final project can contribute to the progress of science.
