## ABSTRACT

The infectious disease known as coronavirus disease is caused by the SARS-CoV-2 virus (COVID-19). The initial entry of COVID-19 into Indonesia was noted on March 2, 2020, in Depok, West Java. The Indonesian government implemented the *Pemberlakuan Pembatasan Kegiatan Masyarakat* (PPKM) policy to stop the spread of this virus. Regular exercise is one strategy that individuals adopt. During the COVID-19 pandemic, many people are interested in the cycling trend. Entrepreneurs also take advantage of the cycling boom to launch new ventures. As a result, bicycle sales and demand have skyrocketed in Indonesia, driving up prices and limiting the availability of some bicycle brands. As a result, bicycle sales and demand have skyrocketed in Indonesia, driving up prices and limiting the availability of some bicycle brands. In order to make it simpler for bicycle fans to obtain bicycle stock at assured rates, *@youronlyroadbike* was formed by implementing an import method. However, *@youronlyroadbike*'s sales management procedure still employs the full system manually, which makes it time-consuming and necessitates frequent checks to prevent bookkeeping problems. As a result, this sales management information system will be a web-based information system that can assist *@youronlyroadbike*'s business in tracking and supervising the sales management process automatically rather than by hand. As a result, *@youronlyroadbike* can monitor the sales management system more effectively and efficiently due to this website.

**Keyword:** *Cycling Trend, @youronlyroadbike, Sales Management System*

## **ACKNOWLEDGEMENT**

First of all, I want to express my sincere gratitude to my parents and some individuals for supporting me through my thesis study and also gratitude to my supervisor, Mr. Ronny Juwono for his enthusiasm, patience, insightful comments, helpful information, practical advice, and unceasing ideas that have helped me tremendously at all times in my research and writing of this thesis. Without his support and guidance, this project would not have been possible. I could not have imagined having a better supervisor in my study. I also want to express my sincere thanks to President University for accepting me into the graduate program. I am also grateful to the following university staff: Ahmed Mustafa, Rick Van Dijk, and Breda Van Breda for their consistent support and assistance. Finally, last but not least I also want to thank everyone on the President University Staff especially Mrs. Yeni and Mrs. Indah it was great sharing premises with all of you during the past almost four years.
