ABSTRACT

In this era of digitalization, business efficiency and effectiveness is very important to keep up with the times. Ashyilla course as a growing company is also looking to improve services by looking at the existing problems. The effectiveness of the information delivered to prospective customers and then efficiency in managing services to prospective customers is one of the existing problems in Ashyilla Course, it is hoped that with this final project which will be executed using the RAD or Rapid Application Development method, it will be able to solve the problems that have arisen, has been declared above.

This final project aims to design a dynamic and effective website to meet the needs of the company and the convenience of prospective customers. This website itself will be equipped with several features that are tailored to the needs of prospective customers and with direct discussions with the Ashyilla Course owner so that later this website is expected to be a win-win solution for the Ashyilla Course Company and prospective Ashyilla course customers.

Through this website later, prospective customers who will be the main users can get detailed information about the products presented by Ashyilla Course through the features that will be present on this website later. In addition, later the admin will be facilitated by the presence of this website because to manage the provision of information until the registration of prospective customers will be assisted by this website in the future.

Keywords: Ashyilla Course, Rad, Effectiveness, Efficiency, Customers.

DEDICATED

With utmost gratitude, I, as the writer and creator of this final project, present the final results that I did for these people:

1. To my parents who I love that much, Mr. Heri Hariyadi and Mrs. Yustikanida. Who has given me all the facilities so that I can carry out my college well, and always pray for me in every prayer. Apart from that, my parents always encourage me in all the process of making this final project.
2. For my two younger siblings, Meccaa and Chilla who always support me in the process of making this project. By giving attention either by phone or message which really helps to raise the mood in the process of working on this project.
3. For my extended family, especially my grandmother, who always asks about the progress of this final project and always asks when I will graduate, which of course makes me more motivated.
4. For my girlfriend Salsha Putri Rifa'i, who during the final project has always helped me, by providing more understanding and motivation during this process. Always ready to help provide suggestions for this final project and always help me to control my mood in the long process of working on this final project.
5. For my close friends who are always ready to help both technically and non-technically. Then always ready to answer questions and provide suggestions, while I was working on this final project.
6. For my supervisor, Mrs. Rosalina. Who always helps from the beginning of selecting the title, until the final technical work of this project. Then patiently and quickly always ready to answer my questions in the process of making this final project. So that the making of the final project can be smooth and on time.

ACKNOWLEDMENT

To Allah SWT, the Almighty God I express my deep gratitude, for giving me this opportunity, as well as health so that while I was working on this project there were no excessive obstacles. I also thank you for always listening to my prayers so that I can go through this long process with gratitude. And also always give serenity and patience when I experience difficulties in this process.

I would also like to thank my closest people; Parents, Siblings, Family, Girlfriend, and my friends. To always believe in me, then provide moral support so that I am able to properly carry out my obligations to complete this project.

Lastly, to my supervisor I thank you very much for guiding me in this process, very patiently and kindly. By always providing solutions to my questions quickly and precisely at all times, it allows me to carry out this obligation well.
