vii ABSTRACT BNKP Cikarang Christian Church is a church that stands based on the division of locations in several places in Indonesia.

This church is one of the Nias tribal churches and uses Nias language as their main language in worship.

However, on this occasion the author will develop research at the BNKP Cikarang Christian Church, namely by making the Development of a Web-Based Information System in the Digitalization Era.

The creation of this website is done so that the services and information that are disseminated are efficient, considering that this is the era of digitalization.

The development of this church information system was made based on the needs of the BNKP Cikarang Christian Church such as information management, congregational data management, management of worship activities, and management of church administration.

In addition, the management is designed in the form of a website that is programmed using the PHP programming language, MySQL, CodeIgniter, Bootstrap and so on.

Furthermore, the research results from the development of this web-based information system indicate that all components of the features that have been made can run well.

Thus, it is expected that the development of this system can streamline the dissemination of information and the work of church servants.

Writing Analysis

These measurements have been normalized on a scale of 1–100 for display on this chart.

Readability: 3.3
Sentences with short words and low amount of syllables have high readability scores.

Percent SAT: 2.5 %
Measures what percentage of words are SAT words, terms from a standardized college admissions exam known for its labyrinthine vocabulary lists.

Simplicity: 31.6 %
Measures what percentage of words are in the 100 most common words in the English language.

Perplexity: 67.9
How familiar a piece of text is to large language models like ChatGPT.

Burstiness: 124.8
Unique score developed by GPTZero in 2022 that correlates to variance in writing. Humans generally vary their writing patterns over time.

Average Sentence Length: 36.7 words
Unique score that correlates to variance in writing, where humans generally vary writing patterns.

ABSTRACT

BNKP Cikarang Christian Church is a church that stands based on the division of locations in several places in Indonesia. This church is one of the Nias tribal churches and uses Nias language as their main language in worship. However, on this occasion the author will develop research at the BNKP Cikarang Christian Church, namely by making the Development of a Web-Based Information System in the Digitalization Era. The creation of this website is done so that the services and information that are disseminated are efficient, considering that this is the era of digitalization.

The development of this church information system was made based on the needs of the BNKP Cikarang Christian Church such as information management, congregational data management, management of worship activities, and management of church administration. In addition, the management is designed in the form of a website that is programmed using the PHP programming language, MySQL, CodeIgniter, Bootstrap and so on.

Furthermore, the research results from the development of this web-based information system indicate that all components of the features that have been made can run well. Thus, it is expected that the development of this system can streamline the dissemination of information and the work of church servants.

ACKNOWLEDGMENTS

First of all, I would like to thank God for His blessings to me, through this thesis program in semester 10th I was able to complete my thesis entitled "*Development of a Web-Based Information System for Churches in Digitalization Era (Case Study at BNKP Cikarang Christian Church)*", as one of the requirements to obtain a bachelor's degree at President University.

During this thesis, I received support, motivation, and prayers from many people. Therefore, I would like to express my gratitude and thank to:

1. Both parents and my two younger siblings who always provide a lot of support, both material and spiritual support and provide encouragement in all conditions.
2. Mr. Genta Sahuri, S.Kom., M.Kom as a thesis advisor who always provides direction, motivation, takes the time during consultation, and advice in the smooth running of my thesis work in this 10th semester.
3. To Mr. Rikip Ginanjar as my academic advisor who always consulted me on various matters during my study at President University and to Mba Inda and Mba Nadela who were always open to the smoothness of my study program.
4. The Head of Department and all lecturers at President University, especially at the faculty of computing, for teaching and providing a lot of knowledge while I was studying.
5. To the servants of BNKP Christian Church Cikarang in providing support for my thesis.
6. To my friends at President University, especially in the information systems major who have accompanied me and provided advice, knowledge, and support.
7. To my friends at President University, especially in major information systems batch of 2019 who have accompanied me and provided advice, knowledge, and support.
