## **ABSTRACT**

Technological developments from time to time develop into a more sophisticated direction. The technology created greatly facilitates activities. By utilizing technology, carrying out an activity will be more efficient. Information system is a technology such as web-based is an application made web-based. This information system is very useful to provide information about daily needs.

Berastagi is a sub-district in Karo Regency, North Sumatra province, Indonesia. Knowledge of technology is very underdeveloped in Berastagi or ancient areas. With this web based application to help people around Berastagi to find boarding houses or rental houses online without searching manually.

In this final project, the author will create a web-based application to make a reservation for a rented house called “Kontrakan Keliat”, so that people are more helpful in getting data or information quickly and more effectively

*Keywords : Technology, Web based, Manually, Reservation, Effectively*
