App Batch File Upload Usage Stats API  Settings **Stats****Average Perplexity Score: 5157.514**

A document's perplexity is a measurement of the randomness of the text

Burstiness Score: 29304.281

A document's burstiness is a measurement of the variation in perplexity

Your sentence with the highest perplexity, "4 *.", has a perplexity of: 173559

ABSTRAK

. Sistem Pendaftaran dan penyedia informasi seputar pembahasan Bahasa Inggris seperti *question* dan *answer* di PT.English Solutions Indonesia masih dilakukan secara konvensional atau manual. Hal ini menyebabkan kesulitan bagi pelanggan untuk mendaftar dan melakukan *question* dan *answer*. Karena itu, tujuan dari penelitian ini adalah membuat fitur sistem pendaftaran dan fitur *English Corner* berbasis website. *System Development Life Cycle* (SDLC) dalam model *waterfall* sebagai metodologi dalam pengembangan sistem ini, seperti: perencanaan sistem, analisa sistem, desain sistem, implementasi sistem dan pengujian sistem. Hasil uji coba dua fitur tersebut menunjukkan bahwa pendaftaran bisa dilakukan dengan efisien dan sistem pembelajaran secara online seputar *question* dan *answer* bisa diakses oleh *visitor*. Kedua fitur tersebut disarankan untuk disediakan di *website* lembaga kursus lain untuk mempermudah pelanggan dalam melakukan pendaftaran dan mengakses pembelajaran secara online seputar *question* dan *answer*

Keyword:Sistem Informasi,*Website*, Pendaftaran, *English Corner*
