Abstract

This paper discussed the implementation and benefits of a social project called the *"Digitalization and Electronic Learning Workshop (Open Class)"* for children in Sidikalang. The project aimed to teach children about digitalization and technology from an early age to create citizens with information technology insight. This paper highlighted the initial difficulties in building relationships with elementary school students but emphasizes the importance of a mutual desire to learn. Additionally, the project aimed to address implicit counseling issues. The project also discussed the importance of teaching basic knowledge of digitalization to create adaptive citizens who understand their rights and obligations. Finally, the article notes that the positive response from students underscores the need to continue such projects to create a more equal and educated society.

keywords: digitalization, students, SDGs.
