ABSTRACT

Title: “Breathe Clean, Live Green” Movement: A Community Environmental Education Program in Pulo Gadung District”

This social project aims to address the critical issue of air pollution, a leading cause of death in Indonesia, claiming 123,000 lives annually. Focusing on East Jakarta, particularly the Pulo Gadung District, the movement engages the community, particularly elementary school students, through an environmental education program. Our main objective is to raise public awareness about the consequences of air pollution. We are aware that we can't make an instant impact to enhance the air quality in Jakarta. Thus, the execution of this social project serves as a preventive measure against the future adverse effects of air pollution. Utilizing the Theory of Change in our project helps us understand why the problem exists, outlining how our strategies will address it, and supporting our belief in their effectiveness through an analysis of evidence and past experiences. This project is initiated with field observation and implementing qualitative research methods to have deeper understanding of the issue and more information of the needs of the community. To address this, interactive seminars have been implemented, providing insights into air pollution concerns and offering practical steps to minimize them. Following that, we conducted a survey and found out that most participants are ready to do their part in reducing air pollution. Not only having a better understanding of air pollution but also inclined to embrace environmentally friendly behaviors, which was one of our main goals for this project.

Key words: Air Pollution, SDGs, Awareness, Pulo Gadung

Table of Contents

Title Page	1
Advisor Recommendation Letter	2
Statement of Originality	3

Abstract	15
Table of Contents	16
CHAPTER I: Introduction	19
I.1. Background	19
I.1.1 Relevant Sustainable Development Goals	21
I.2. Objectives and Goals	22
I.3. Logo	22
CHAPTER II: Literature Review	24
II.1. Air Pollution	24

II.2. Understanding Air Pollution in Jakarta	24
II.3. Jakarta's Air Quality: Pre and Post-COVID-19 Impact	25
II.4. The Effects of Air Pollution on Health and Well-being	26
II.5. Air Pollution and its Impacts on Economic Sectors	26
II.6. Air Pollution as a Societal Concern	27
II.7. Cultural Influences on Air Pollution	28
II.8. Approaches to Mitigate Air Pollution Effects	29
CHAPTER III: Project Methodology	31
III.1. Theory of Change	31
III.2. Field Observation	31
III.2.1. Target Participants	32
III.2.2. Collaboration	33
III.2.1. Personal Funding	34
III.2.1. Seminar	34
CHAPTER IV: Implementation	36
IV.1. “Breathe Clean, Live Green” Movement	36
IV.2. Organizational Structure	37
IV.3. Event Description	37
IV.4. Timeline	38

IV.5. Seminar Rundown	40
IV.6. Survey	41
IV.7. Job Descriptions	43
IV.7.1. Division Job Descriptions	43
IV.7.2. Individual Job Descriptions	44
IV.8. Budgeting	47
IV.8.1. Income	48
IV.8.2. Expenses	48
CHAPTER V: Closing	49
V.1. Conclusion	49
V.2. Personal Results	49
V.3. Evaluation	50
V.4. Suggestions	51
Appendix	52
Bibliography	56
