Chapter 1

Stats

Average Perplexity Score: 63.000

Perplexity is a measure of how well a language model predicts a word given the context. It is calculated as the inverse of the probability of a word given the context. A lower perplexity score indicates a better model.

A document's perplexity is a measurement of the randomness of the text

Burstiness Score: 73.539

Burstiness is a measure of how much a document's perplexity varies. It is calculated as the standard deviation of the perplexity score. A higher burstiness score indicates a more varied document.

A document's burstiness is a measurement of the variation in perplexity

Your sentence with the highest perplexity, "Preparation Time

ABSTRACT

Bullying is a conscious activity whose purpose is to hurt and harm someone and is carried out repeatedly. Bullying is inseparable from the desire for power and also being someone who is feared, bullying is a form of aggression behavior, such as ridicule, insults, and threats, which is very rampant in Indonesia, especially in the school environment, by running a white light program, Using social approach techniques that is taken from PACER National Anti Bullying which is sharing, communal worship, and talent competitions, this program seeks to boost each participant's sense of self-worth and mutual respect among all living things. It also aims to improve the atmosphere at the Rumah Harapan Orphanage and Dhuafa and make it more upbeat and conducive to positive changes. Behaviouristic theory, which has an attachment in terms of expressing the problems experienced by a person and offering suggestions for behavior, was used in this report, along with the Sustainable Development Goals, which refer to point number four.. As a result, it seems certain that children at Rumah Harapan have both been bullied and the perpetrator, and that exposure to bullying has given them an understanding of how to deal with it.

Keywords: *Bullying, Social Approaches, Rumah Harapan Orphanage and Dhuafa , Behaviouristic theory*

ABSTRAK

Bullying merupakan aktivitas sadar yang tujuannya untuk melukai dan menyakiti seseorang dan dilakukan secara berulang-ulang. Bullying ini tidak lepas dari yang namanya keinginan untuk berkuasa dan juga menjadi seseorang yang ditakuti, bullying merupakan salah satu bentuk perilaku agresi, seperti ejekan, hinaan, dan ancaman, yang dimana sangat marak terjadi di Indonesia terutama di lingkungan sekolah, dengan menjalankan program white light, yang bertujuan untuk meningkatkan kepercayaan diri dan nilai saling menghargai antar makhluk hidup, juga melahirkan suasana yang lebih ceria, serta produktif akan hal yang positif di Panti Asuhan Yatim Piatu dan Dhuafa Rumah Harapan, dengan menggunakan metode pendekatan sosial yang kami ambil dari materi PACER National Anti Bullying Center, seperti sharing, ibadah bersama serta melakukan lomba pertunjukan bakat, teori yang digunakan dalam laporan ini adalah Behaviouristic theory yang memiliki keterikatan dalam hal mengemukakan masalah yang dialami seseorang dan memberikan saran untuk tingkah laku dalam konteks Pembangunan Berkelanjutan, sehingga dapat diketahui bahwa anak-anak di Rumah Harapan ada yang pernah menjadi korban maupun pelaku bullying, maka dengan itu pemaparan tentang bullying membantu mereka untuk mengetahui bagaimana cara menyikapi hal tersebut.

Kata Kunci: *Bullying, Pendekatan Sosial, Panti Asuhan Yatim Piatu dan Dhuafa Rumah Harapan, Behaviouristic theory.*
